METAVGALAXY WHITEPAPER

MetaVGalaxy White Paper

This paper lays out the vision, tokenomics, and roadmap for the Metavgalaxy project. We're taking a giant leap into the future, and we'd like you to join us in the future of metaverse gaming , nft and defi for the next 100 years, owned by the community, built by the community, for the community

(WHITE PAPER DISCLAIMER)

Please Read Before Acquiring Metavgalaxy or Attempting to use the metavgalaxy system Technology.

This METAVGALAXY WHITE PAPER is meant to provide the reader with information reading Metavgalaxy, NFT platform LTD, GAME CREDITS, and ITS PARTNERS , and how the Metavgalaxy technology operate. It is meant to inform the current design of the MVG token and technology as well as its planned design.

This WHITE PAPER may be updated at any time, without Notice. To ensure you have the latest information, check the latest version at <https://metavgalaxy.io/whitepaper>. Errors and omissions are expected.

METAVGALAXY

Vision

Metavgalaxy is a multicreator platform universe, with a diverse community working together to achieve a common goal: A metaverse that will still be growing, evolving, and actively played in 100 years.

To achieve this, development and management of Metavgalaxy will be decentralized, with governance decisions guided by the Metavgalaxy Foundation, and voted on by players using the Metavgalaxy token. Metavgalaxy will run as a nonprofit, with all assets owned by and revenue earned by the Metavgalaxy Foundation reinvested in the long-term success of the platforms.

The Worlds

Metavgalaxy is filled with hundreds of worlds, each one with a unique theme and gameplay experience, and each crafted by a group of community members with shared interests.

Everything in Metavgalaxy is community-created. members will travel from world to world, play trade build and...

METAVGALAXY

NFTs, DeFi, Gaming, and the Metaverse

Metavgalaxy sits at the intersection of NFTs, DeFi, gaming, and the metaverse. Each of these has the potential to be a \$100Bn market or bigger. Together, the potential is far greater, and the approach we're taking allows every creator in the Metavgalaxy community to unlock that potential.

The purpose of Metavgalaxy is not profit, but to execute on its core vision: An MVG gaming metaverse which will grow and evolve over the next 100 years and beyond. The Metavgalaxy founders, creators, and investors will not be getting rich on the back of the success of Metavgalaxy. This is a massive benefit to the Metavgalaxy community - instead of large amounts of money being taken out of the ecosystem to provide profits, every single dollar, BNB, and MVG/MVGT earned will be reinvested into the ecosystem.

We're asking you to buy into the vision for Metavgalaxy, and join us to create something amazing and enduring.

The Game, Community, and Culture

There hasn't ever been a startup, game, metaverse, defi, or nft project quite like Metavgalaxy. A decentralized game, developed by community members, that will still be around 100 years in the future. When we're creating something like Metavgalaxy, we have to start thinking differently. Metavgalaxy encompasses a lot of things: Community, startup, game, metaverse, defi, nft, culture, vision, IP, software, and more. So where should we start? With the "why" and the "how" - the vision for the game, the culture, and the community.

METAVGALAXY

Creativity

The first pillar of Metavgalaxy culture is Creativity. Genesis, as a game, as a metaverse, as an IP, will never stop growing, changing, and evolving with the times. And the creativity of the Metavgalaxy community is what will keep it fresh, new, and exciting. To support that growth, we must all foster a creative environment where new ideas are celebrated, implemented, and enjoyed.

Collaboration

The second pillar is collaboration. The Metavgalaxy community is not an “every person for themselves” group. It’s a community of diverse individuals working together to achieve a common goal. Metavgalaxy will succeed when we encourage and incentivize groups to form, grow, and work on projects together. We’ll help community members find groups and teams that can utilize their talents. And we’ll watch each other’s backs. If we see issues that affect other peoples’ experiences, we’ll help them overcome those issues, and help the wider community prevent those issues in the future.

Inclusion

The third pillar of Metavgalaxy culture is inclusion. A broad base of diverse members will create a more vibrant and exciting community. Diversity on its own, though, isn’t enough. Metavgalaxy needs a constant influx of new community members, who believe in the Metavgalaxy vision, and take on progressively more responsibility. We need to actively bring them into the community, ensure that they know their way around, know the culture, and get them involved. The new recruits of today are the community leaders of tomorrow

METAVGALAXY

Phases of NFT

Metavgalaxy One of the best Binance smart chain NFT projects In the year 2022. Our team of professional designers and programmers (MVGTEAM) have been working on this great Project for more than a year And finally today it's ready to launch.

(the solar system closer than ever at your grasp)
the sun, planets, the moon and earth with all its countries are created as NFT And are ready to be yours. in the year 2022 MVGTEAM Planned four executional phases

Phase 1:

The pre-sale of solar system NFT

On the first step of the pre-sale the sun, 8 planets, The moon and countries on Earth Are evaluated for the first investors on the project.
(1/10 Price)

Phase 2:

For the first time ever stake NFT is a started in our project which you are able to freeze your Purchased NFT and gain interest from the local token (MVGToken)

Phase 3:

The launch of NFT market project which is the most important and yet the most interesting of all METAVGALAXY programs.

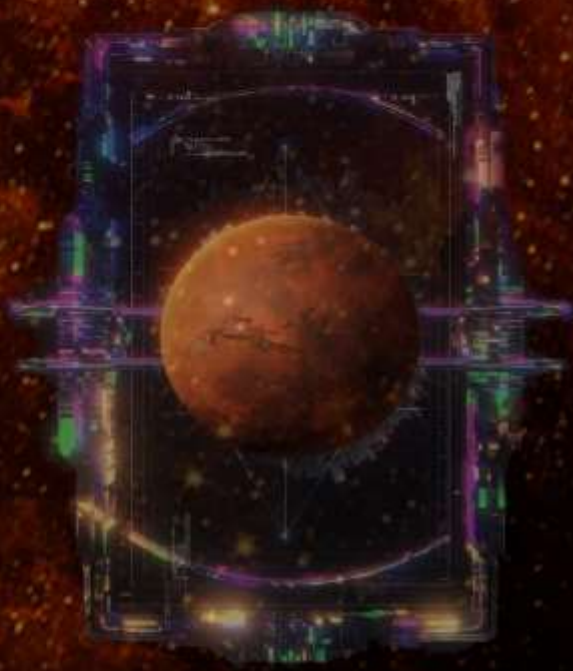

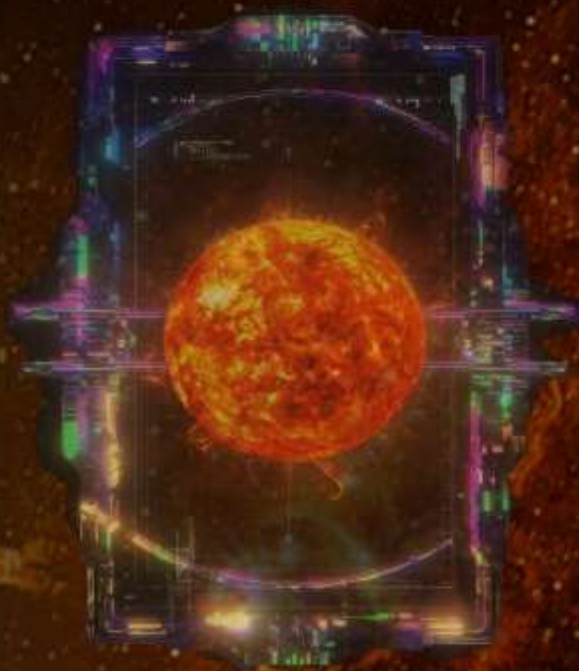

Phase 4:

the launch of the game platform Which you can earn money (P2E) by using the purchased NFTs.

METAVGALAXY

Phase one

The first NFT pre-sale in solar system begins simultaneously with the start of the project. In this stage the sun, 8 planets, The moon and all countries on Earth Will be fully sold, With a very low price to the first investors of the project. the price for each and every NFT is measured by many factors. (It's size, mass, unique advantages for each planet and ...)

The sun is the biggest and the most valuable of them all.

On the next stage all eight planets are valued differently based on their unique traits. The moon which is Earths only satellite is placed at the last of all planet NFTs.

So far the sun, planets and the moon in the solar system are all at our disposal. The next stage of this Project is planet Earth. All countries on Earth are valued by their size, population, military and economic authority and ...

All these NFTs are available to purchase from METAVGALAXY.

METAVGALAXY

We are considering adding other galaxies such as Andromeda, which is the second known galaxy, to our project in the future. Following this by adding two more galaxies we're going to have a total of 4 galaxies at our disposal.

In order for completion of phase 4, which is the launch of the game, all 4 galaxies are required. And according to the roadmap they will be unveiled.

have this in mind and that because the pre-sale and launch of the project are happening at the same time, all NFTs are set for the price of 1/10. And in phase 3 they're going to be 10/10. Get your NFTs if you want to sell them.

METAVGALAXY

Phase 2

For the first time ever in the NFT industry Provided by mvgteam You're able to freeze your purchased NFTs and stake them. We are really proud to present to you All our worthwhile services. In this stage of the project you're able to freeze your purchased NFTs And receive your Interest token from MVGT In every 120 Days period.

Note that at the beginning of every period all your interests will be sent to your wallet. the price and duration of the freezing NFT Determines The amount of interest your receiver.

for more information please visit www.metavgalaxy.io

Earn up to 500% pure interest a year

PLANET MVGT STAKING

planet picture	%

jupiter	300
saturn	300
mars	300
mercury	300
venus	300
uranus	200
neptune	200
moon	200
countries	10-100

METAVGALAXY

phase 3 NFT market

Billions of dollars' worth of NFTs had been bought and sold in 2021 which shows it's highly acclaimed by the public in the market and has a great capacity for earning huge amounts of money. It's a huge market that had caught the attention of all societies and professions such as artists and athletes. Nowadays finding an NFT trading platform without a middleman and with low concentration is really necessary. Meanwhile myteam wants to create a comfortable and secure place without any go-betweens which is controlled with low concentration that users are able to sell their NFTs easily with a few clicks.

This stage is one of the biggest and most important stages of our project which will be executed very soon in the given time.

The exact date of all phases launch is explained in the roadmap.

The investors who have bought NFTs in the first phase will experience a 1000% interest by the beginning of phase 3.

Phase 4 game platform

The final phase of the project in 2022.

After completing all other phases of the project one by one this is finally the time for all people of Earth To know The METAVGALAXY Project and earn money from it. By the start of the gaming platform which is "play 2 earn" you can have daily income. Having at least one NFT from the project is required to play and earn.

Land

Land is an NFT associated with (located on) a Planet

Land ownership is represented by ownership of the NFT

A land NFT defines modifiers which affect gameplay aspects such as:

Time between mining calls Amount of MVGT that the land generates per mine

Planets have a finite amount of land on them at inception

Land owners can set a commission (which is the % of MVGT mining rewards the landowner receives)

One of the interesting parts of the game is colonizing which is sorting purchased NFTs Which by Dividing Your countries and planets you can earn extra money. You Can Divide your planet to different states which they all can be bought or rented.

The owners of the sun can charge other planets and countries for shining light on them which is a really easy money.

You're able to earn money from tourists who travel to your country, State or city. All of these are just a small part of this very interesting game which we have designed for you so you can earn valuable tokens from.

And the games roadmap which will be published in the future Every instruction and detail on how to earn money from this game is Explained.

Keep in mind that other galaxies will be added.

METAVGALAXY

THE SOLUTION FOR PLAYERS

Play games within minutes of purchase using our progressive

Earn Money

Earn Ultra Coins by participating in beta tests, watching ads,
curating games and more

(Earn money with NFTMarket

Earn NFT's)

Colonies planet & nfts

Be Part of a Community

Experience an innovative and rewarding open community

Bring Your Friends

Play2earn

Create nfts

THE SOLUTION FOR DEVELOPERS

Marketing Toolbox

Access to powerful marketing & promotional tools including an
innovative influencer program

Grow Your Community

Nfts, staking and games are built-in as if you own the platform

Build better nfts & games

Support from the community through financial incentives for beta
tests, bug hunting, feedback, and many more

Get Paid Faster

Faster sales payouts enable devs to quickly reinvest money in their
game launch marketing

New Revenue Streams

Earn money through in-game advertising

Earn money through commission in-nftmarket

METAVGALAXY

Q1 (2022)

Launch Website
Launch Beta Metavgalaxy Platform
First Sale Milkyway NFTs
Start NFT Staking
Roadmap & Whitepaper
GitHub & Audits
First MVT claim
MVG Presale

Q2 (2022)

Launch releases METAVGALAXY Platform.
Start Staking MVG tokens
Promotional marketing
CoinMarketCap Listing
Launch the Alpha Metavgalaxy Platform
Listing on DEXs and CEXs

Q3 (2022)

Launch other Galaxy platforms
Launch NFT Market
Cross-Chain
Test Wallet Application
Development of mobile app that supports all the features

Q4 (2022)

Launch the NFT Game (Play to Earn)
Marketing for NFT Game
Open to Partnerships
Colonise with Building System(buildings,fences)
Virtual Reality(VR)
